PROFESSIONAL SUMMARY

Detail-oriented data analyst with 6+ years of experience in statistical analysis and data modeling.

Known for meticulous attention to detail and ability to identify patterns in complex datasets.

Methodical approach to problem-solving with strong analytical skills.

EXPERIENCE

Senior Data Analyst | Precision Analytics | 2018-Present

- Analyzed large datasets to identify trends and patterns

- Created detailed reports and visualizations

- Developed predictive models with high accuracy

- Ensured data quality through rigorous validation processes

Data Analyst | Statistical Solutions | 2016-2018

- Performed statistical analysis on business data

- Created dashboards for tracking key metrics

- Collaborated with teams to interpret data findings

- Documented all analysis processes and methodologies

EDUCATION

Master of Science in Data Science | Technical University | 2014-2016

Bachelor of Science in Statistics | Math Institute | 2010-2014

SKILLS

- Data Analysis: Statistical Modeling, Predictive Analytics, Data Visualization

- Programming: Python, R, SQL

- Tools: Tableau, Excel, SPSS

- Soft Skills: Attention to Detail, Critical Thinking, Problem Solving

CERTIFICATIONS

- Certified Analytics Professional (CAP)

- Advanced Statistical Modeling Certification

INTERESTS

- Solving complex puzzles

- Reading research papers

- Attending data science conferences

- Participating in coding competitions
